

PERFORMANCE ALERT

***** **ALI Print Button** *****

The **ALI Print** button in the **ALI Tools** is used when it is necessary to print the ALI screen. The two ways to do this are detailed below.

1. **ALI Print** from a call:

The **ALI Print** button is available when you are on a 911 call. It is located in the top middle of the Guardian screen in the **ALI Tools**.

a. While on a call the **ALI Print** button will become available.

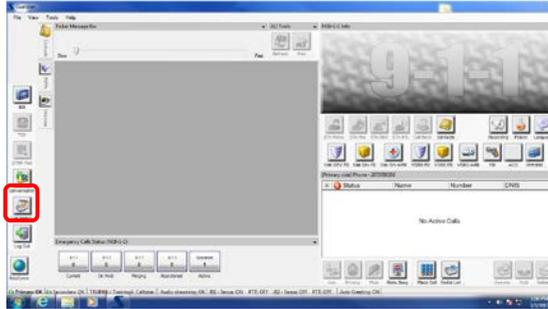

b. Click the **ALI Print** button and it will immediately print to your printer.

2. **ALI Print** button from **Call History**.

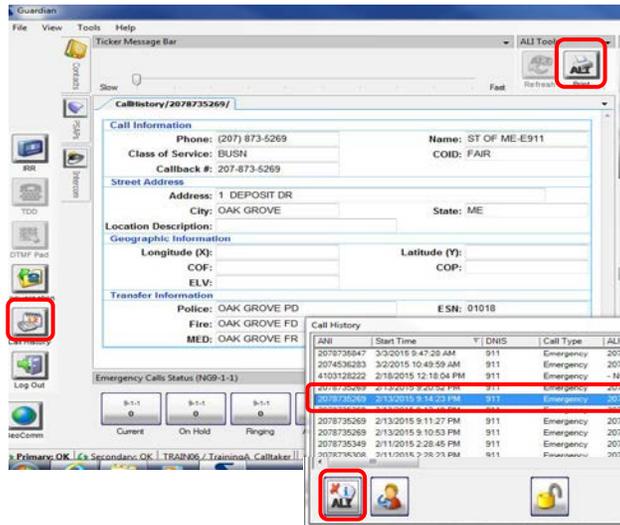

The **ALI Print** button is available for a call opened from the **Call History** window. The **Call History** button is located on the **Left Navigation Bar**.

To use:

- a. Click on the **Call History** button to view past calls.

- b. Locate call and highlight it.
- c. Click on the **ALI** button in the bottom left of the **Call History** screen to redisplay the ALI of the chosen call.

- d. Click on the **ALI Print** button and it will immediately print to your printer.

NOTE: After printing the ALI screen dispose of the prints appropriately.

Please continue to contact the FERC with any system issues
